FRAG TANK	180	75	40	12	500L	\$850
FRAG TANK	200	90	45	12	700L	#####

Custom Metric sizes are available as required subject to engineering specification limits. Our suppliers can not supply 25mm Ultra Clear Glass so please consider 19mm the MAX thickness with sheet size 2440mm x 3660mm as these dimensions need to be factored.

Holes which may be required are best done at the build * (\$30/hole, 20mm - 125mm).

* Hole sizes available: 20 22 25 28 30 32 35 40 45 50 55 60 65 70 75 80 90 100 105 125mm

We can also offer Tempering (Hardening) of the glass prior to assembly which increases the strength / integrity and greatly increases the resistance to scratching. **

** **NB:** 1) Glass hardeneing price on application only 2) NATA Cert AS2208 supplied
